★for ENTS★
★Officer!★

I am a first year student studying Creative Events: Design and Production as part of the University of Kent. I have had a lot of experience arranging parties, theatre groups and other activities and so I would know how to create the type of events that could create a fun and varied social life at Medway. I have also lived in the area all my life and so have a very good idea of what is happening around the area events-wise. From what I have seen so far at the campus, there are a lot of resources that are not being used to their full potential, such as Purple and Coopers and I will help to create a more accessible social life within Medway so that students can have experiences they will never forget!

More Late Night Buses!

I will create late night buses going around the Medway Towns to the campus and back so that students can get to and from the campus without having to drink and drive or walk alone at night. It will create a safer more accessible environment for the students to use.

More Variety and Live Acts Frequently!

I will create a larger variety of events within the Medway campus (for example, talent shows, fun sports events) as well as introducing a lot more live acts so that students can have access to gigs for local bands or even have a platform to perform themselves. I will also increase how regular the events are and the publicity of them so students will be more aware of what is going on within the campus and when.

More Events in the Holidays!

I will create more events within the holidays so that any students who are staying on or near campus will need to feel that their social life has to end once the holidays arrive.

To register your vote you can go to the Drill Hall Library on Weds 14th Nov or Thurs 15th Nov ☺
