

Vote Joel #1 President "The Student's Advocate"

With a proven track record in strategic planning and performance, Joel is the #1 candidate to strategically improve our Medway campus, by way of leadership and a listening ear, Joel aims to do like no other - represent YOU, the way YOU want. Allow him to be your advocate!

Joel On Education...

We are all here for the same reason, to gain the best academic education we possibly can, this can only be achieved through the continued support by the people who head our education system, by means of a more effective communication system to longer opening hours and better resources enabling us to make full use out of them at the times we need.

I aim to drive our education system to success, for you!

Joel on University Social Life...

We all need a break from time to time, right? So why is that there are no substantial facilities available for it? I will be pushing forward this aspect forward in a stronger way than ever!

Ever wonder why there is never anything fun to do on campus? I aim to make sure that fresher's week is no longer and fresher's year dawn on our Medway campus.

Joel on Money...

I've been a student for several years now, and like everyone else have experienced major financial hardship.

However there is a key...

The university is given money from the government to ensure that our experience at university is not one of hardship but one of enjoyment and long lasting financial support, with this in mind I aim to bridge the gap from strapped to cashed!

"Joel's continual passion for an education system for all will lead Medway to the forefront of all student unions" - Wilton Powell OBE
